

Inspection and Test Services:

Active Components (Basic Test Plan)

- External Visual Inspection
- Dimensional Check
- Blacktopping Test
- Marking Permanency Test
- Radiographic Inspection
- De-Cap (2 components - Ceramic Parts Only)
- Internal Visual Inspection (2 components)
- Process Documentation

Lead Time: 2-3 Days

Cost: \$375.00 for Passing Components

Transistors and Diodes (Basic Test Plan)

- External Visual Inspection
- Dimensional Check
- Radiographic Inspection
- Marking Permanency Test
- Functional Test of Basic Parameters at Ambient Temperature (Varies by product type)
- Process Documentation

Lead Time: 7 Days

Cost: \$900.00

Comment: If components fail functional electrical testing, \$450 credit memo will be issued

Active Components (Expanded Test Plan)

- De-Cap (2 components - plastic)
- DC Curve Tracing (under 75 pins)

Lead Time: 7 Days

Cost: \$600.00

Comments: Additional Charges may apply for hardware and or NRE for complicated packages or non-standard packages with more than 75 pins.

Active Components (Functional Testing)

- Subject to quote.
- Subject to NRE and Hardware Development

Lead Time: Greater than 4 Weeks

Cost: Starting at \$4000.00
