Multi-layer ceramic chip capacitors

MCH15 (1005 (0402) size, chip capacitor)

●Features

1) Miniture, light weight
2) Suitable for mobile devices
3) Lead-free plating terminal
4) No polarity

●Quick Reference

The design and specifications are subject to change without prior notice. Please check the most recent technical specifications prior to placing orders or using the product. For more detail information regarding packaging style code, please check product designation.

●Thermal compensation

Part No.	Size code	Temperature characteristics (ppm/°C) code		Operating temp. range (°C)	Rated voltage (V)	Capacitance (pF)	Capacitance tolerance	Thickness (mm)
MCH15	1005 (0402)	A (AN)	0±120(CJ)	−55 to +125	50	0.5 to 3.9 (E24 Series) *	C(±0.25pF)	0.5 ± 0.05
			0±60(CH)			4 to 5 (E24 Series) *		
			0±30 (CG)(C0G)			5.1 to 9.1 (E24 Series) *		
						10 (E24 Series) *	D(±0.5pF)	
						11 to 220 (E24 Series)	J(±5%)	
						270 to 470 (E12 Series)		

* : 0.5pF/0.75pF/2pF/3pF/4pF/5pF/6pF/7pF/8pF/9pF available

●High dielectric constant

Part No.	Size code	code	Temperature characteristics	Operating temp. range (°C)	Rated voltage (V)	Capacitance (pF)	Capacitance tolerance	Thickness (mm)
MCH15	1005 (0402)	CN	0±10% (B)	−25 to +125	50	220 to 6,800 (E6 Series)	K(±10%)	0.5 ± 0.05

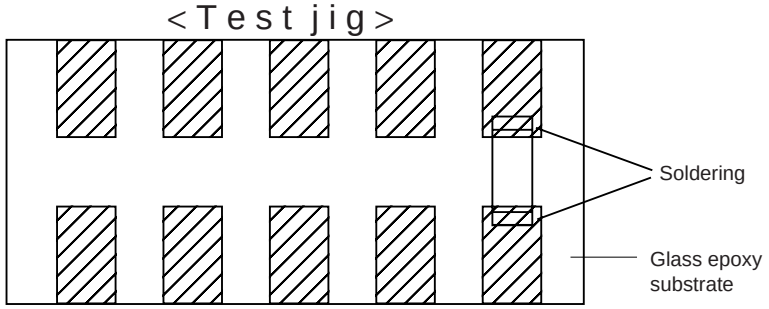
[Remarks]

Pre-conditioning

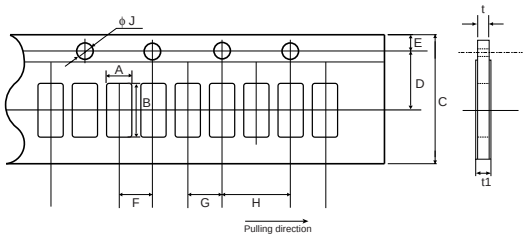
If specified in test method of as per 3(Performance and test merhod), capacitors of CN, FN characteristics shall be pre-conditionded as follows.

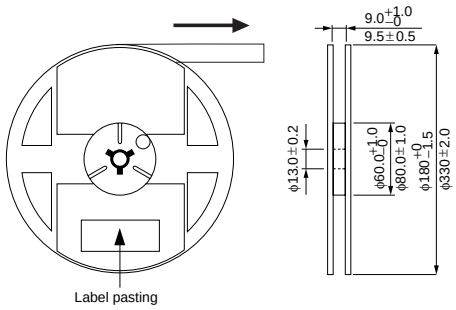
(1) Thermal pre-conditioning
Prior to initial measurements, specimens shall be conditioned at a temperature of 150 0/–10°C for a period of 1hr., and shall be allowed to stabilize at room temperature for 48+/–4h

(2) Voltage pre-conditioning
Prior to initial measurements, voltage specified as a test condition shall be applied to specimens for a period of 1hr., and the specimens shall be allowed to stabilize at room temperature for 48+/–4h



●Packaging specifications

Taping dimensions	Reel dimensions
	




Symbol	C	D	E	F	G	H	J	t	t_1
Dimensions	8.0 +/ −0.2	3.5 +/ −0.05	1.75 +/ −0.1	2.0 +/ −0.05	2.0 +/ −0.05	4.0 +/ −0.1	ϕ1.5 +0.1/ −0	0.7 +/ −0.05	0.8 MAX.

(Unit : mm)

Style \ Symbol	A	B
MCH15	0.62 +/ −0.05	1.12 +/ −0.05

(Unit : mm)

As per EIAJ ET−7200A

(Unit : mm)

(1) The quantity for one reel is as bellows.

Kind of reel	Series	Paper tape	
		Quantity	Symbol
ϕ180 reel	MCH15	10,000 pcs.	K
ϕ330 reel	MCH15	50,000 pcs.	L

(2) When the tape is pulled out towards the operator with the cover tape facing upward, the feeding holes shall be found on the right portion of the tape.

(3) Specification of beginning and ending of the tape are as follows.

Ending(reel's center) : Approx. Over 300mm (no chips)
Beginning(reel's round) : Approx. Over 270mm (no chips)
: Approx. 30mm (no pasted tape)
: Approx. 260mm (cover tape only)

(4) No juncture of tape shall be allowed.

(5) The share strength of tape shall be more than 5N at the break down strength.

(6) The peel strength of the cover tape shall be 0.1 to 0.7(N) when the cover tape are peeled 0 to 15° degree from the surface.

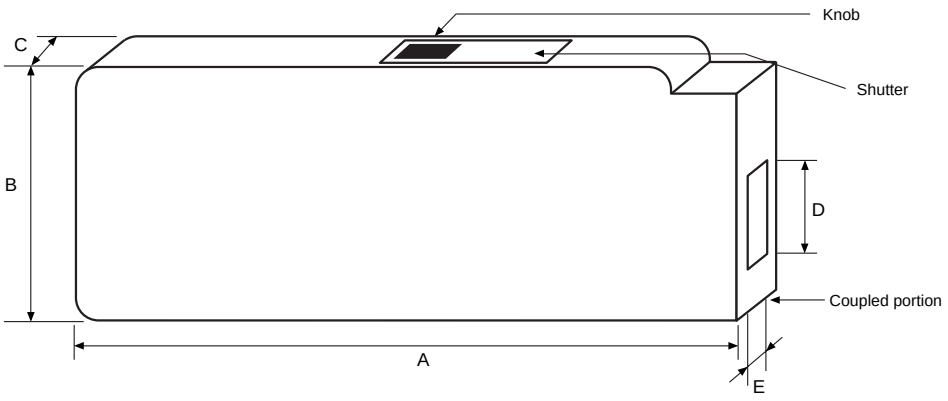
(7) The number of missing components shall not exceed 0.1% of the total number of components (marked number) or one whichever is the larger, and no consecutive missing exceeding two is allowed.

(8) The reels made from resin shall be used, as per EIAJ ET-7200A.

●**Bulk case**

Bulk case

Bulk case dimensions (As per EIAJ ET-7201A)



Symbol	A	B	C	D	E
Dimensions	110	36	12	19	5

(Unit : mm)

(a)Quantity of package

Style	T dimensions(mm)	Quantity (pcs)
MCH15	0.5	50,000 +10/–0

●**Marking**

No marking shall be performed on the chip.

Trademark, parts number, quantity, lot No. , and country of origin shall be labeled on each reel, bulk case.

●**Numbering system for LOT No.**

Example $\frac{04}{(1)}$ $\frac{01}{(2)}$ $\frac{A0001}{(3)}$ $\frac{J}{(4)}$

(1) The end of the Christian Era < two digits> of production finish.
(2) Week in completing part of production finish.
(3) Manufacture continuity number.
(4) The symbol of manufacturing plant.

●**Label expression**

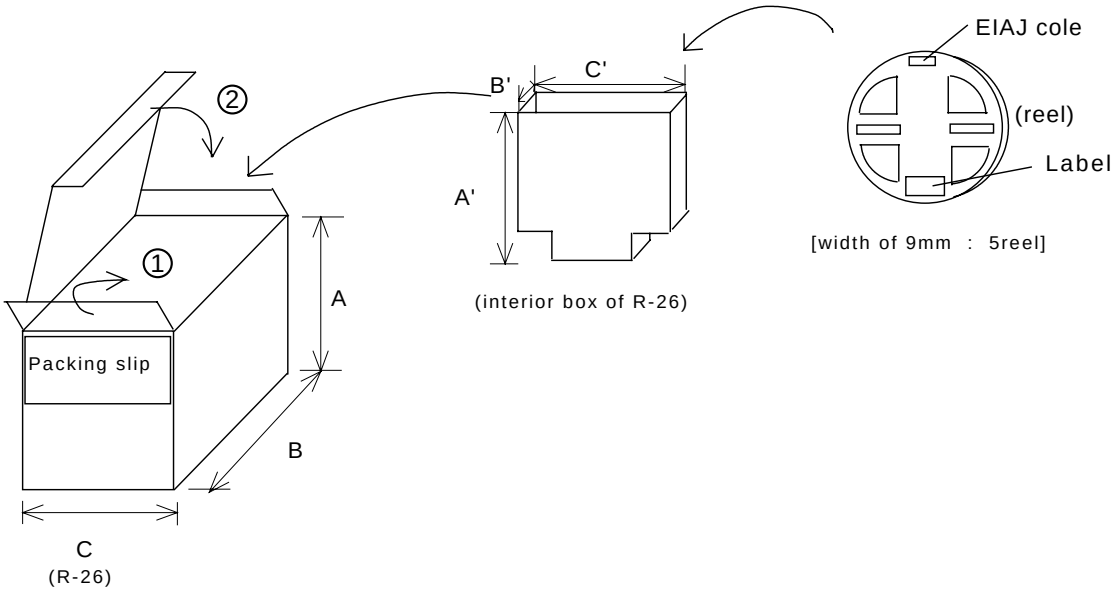
The Figure below is label expression

< Label Example > Part Number : MCH155A101JK

① Part Number
② Division cord
③ Quantity
④ Lot No.
⑤ The Country of origin
⑥ Inspector
⑦ QR code
⑧ Trademark

●**Packing method**

1) ϕ180mm Reel



< Packaging unit >

Symbol	K
Quantity of reel in interior box	5
Quantity of reel in box of R-26	20

Dimensions	Packaging	
	R-26	interior box of R-26
A (A')	195	185
B (B')	255	60
C (C')	190	185

(Unit : mm)

< Appearance >

Carton

< Accumulation >

You must do accumulation by ten boxes

< Packaging slip >

1. Customer
2. Parts number
3. Quantity
4. Box quantity
5. Trade mark

●Weight / Piece

(Unit : mg)

Size	Item	Thickness	Characteristics	Weight / Piece
1005 (0402)	MCH15	0.5mm	A	1.5
			AN	1.2
			CN	1.5
			FN	1.5

Note) The measured values in the table are for reference only.
Actual weight of these chips may vary slightly lot by lot.

Notes

- No technical content pages of this document may be reproduced in any form or transmitted by any means without prior permission of ROHM CO.,LTD.
- The contents described herein are subject to change without notice. The specifications for the product described in this document are for reference only. Upon actual use, therefore, please request that specifications to be separately delivered.
- Application circuit diagrams and circuit constants contained herein are shown as examples of standard use and operation. Please pay careful attention to the peripheral conditions when designing circuits and deciding upon circuit constants in the set.
- Any data, including, but not limited to application circuit diagrams information, described herein are intended only as illustrations of such devices and not as the specifications for such devices. ROHM CO.,LTD. disclaims any warranty that any use of such devices shall be free from infringement of any third party's intellectual property rights or other proprietary rights, and further, assumes no liability of whatsoever nature in the event of any such infringement, or arising from or connected with or related to the use of such devices.
- Upon the sale of any such devices, other than for buyer's right to use such devices itself, resell or otherwise dispose of the same, no express or implied right or license to practice or commercially exploit any intellectual property rights or other proprietary rights owned or controlled by
- ROHM CO., LTD. is granted to any such buyer.
- Products listed in this document are no antiradiation design.

The products listed in this document are designed to be used with ordinary electronic equipment or devices (such as audio visual equipment, office-automation equipment, communications devices, electrical appliances and electronic toys).
Should you intend to use these products with equipment or devices which require an extremely high level of reliability and the malfunction of with would directly endanger human life (such as medical instruments, transportation equipment, aerospace machinery, nuclear-reactor controllers, fuel controllers and other safety devices), please be sure to consult with our sales representative in advance.

About Export Control Order in Japan

Products described herein are the objects of controlled goods in Annex 1 (Item 16) of Export Trade Control Order in Japan.
In case of export from Japan, please confirm if it applies to "objective" criteria or an "informed" (by MITI clause) on the basis of "catch all controls for Non-Proliferation of Weapons of Mass Destruction.
