

# Connector for SD Memory Card

SCDA Series

Compact low-profile type with a width of 27mm features high reliability contact structure.

For SD Memory Card

For microSD™ Card

For SIM Card 8pins

For W-SIM

For Memory Stick Micro™

For Memory Stick™

Combine Type

For Compact Flash™

For PC cards supporting CardBus

For Express Card™

For CMOS Camera Module

## Features

- Media half-lock structure stops media from flying out during ejection, preventing the dropping and loss of media.
- Media detection switch adopts a highly reliable structure where the contact slides at ON/OFF to ensure detection of media insertion timing.
- Also compatible to MultiMediaCard™.
- Compact size and low-profile.

## Applications

- For digital still cameras, digital camcorders, mobile phones, PCs and personal digital assistants
- For home audio equipment (TVs, set top boxes, etc.)
- For stereo systems
- For portable memory players

## Typical Specifications

Items		Specifications	
Structure	Applicable media	SD Memory Card/MultiMediaCard™	
	Mounting type	Surface mounting type	
	Mounting style	Standard mount/Reverse mount	
	Media ejection structure	Push-push type/Manual insertion/removal	
Performance	Operating temperature range	-25°C to +60°C	
	Voltage proof	100V AC 1minute/500V AC 1minute (SCDA3)	
	Insulation resistance (Initial)	1,000MΩ min.	
	Contact resistance (Initial)	Connector contacts	100mΩ max.
		Detection switch	500mΩ max.
Insertion and removal cycle	10,000cycles

## Soldering Conditions

### Example of Reflow Soldering Condition (Reference)

1. Heating method: Double heating method with infrared heater.
2. Temperature measurement: Thermocouple 0.1 to 0.2 ϕ CA (K) or CC (T).
3. Temperature profile (Surface of products).

## Cautions for using this product

1. When soldering terminals, there is a danger that load placed on the terminals may cause rattle, deformation or electrical degradation to occur depending on the conditions. Caution is therefore required.
2. Avoid use of water-soluble soldering flux, since it may corrode the product.
3. Check and conform to reflow soldering requirements under actual mass production conditions.
4. PC board warping may alter the characteristics. Please take this into consideration when designing patterns and layout.
5. The card specifications are provided by the above manufactures. Products by other manufactures may not be compliant with these specifications and are subject to change without prior notice.
